SKHS Teaching Fellowships
Positions Available for 2020-2021

POSTED: 22 April 2020

WINTER TERM 2021

KNPE 125/3.0: Introduction to Human Physiology
This course provides an introduction to human physiology from the cellular to the systemic level with special emphasis on the systems that adapt to exercise stress. The following areas will be covered: the cell, nervous system, skeletal muscle system, respiratory system, cardiovascular system, neuroendocrine system, and renal system.
Term: Winter 2021; Projected Enrolment: 295 students

KNPE 337/3.0: Physical Activity Promotion for Children and Youth
This course explores topics such as theoretical models of motivation, interest, and interpersonal behaviours, and the design, implementation, and provision of inclusive physical activity environments for children/youth. This course emphasizes the application of theory through activity-based classroom sessions and community placements.
Term: Winter 2021; Projected Enrolment: 40 students

HLTH 430/3.0: Critical Weight Studies
We live in a fat-phobic world where discrimination on the basis of body size is a socially acceptable form of prejudice. This seminar style course draws on the rapidly developing literature in the scholarly field of fat studies to consider body weight and fat-phobia from critical, cultural perspectives.
Term: Winter 2021; Project Enrolment: 25 students

HLTH 434/3.0: Social Movements in Health
This course explores the proliferation of health social movements since the 1970s. Bringing together the interdisciplinary study of health and illness with social movement theory, the course analyses the strategies, goals, and outcomes of political organizing around conditions ranging from HIV/AIDS to sick building syndrome. Students will lead seminar discussions and undertake original research on a movement of their choice.
Term: Winter 2021; Projected Enrolment: 25 students
Summer Term 2021

HLTH 101/3.0 – Social Determinants of Health (Arts and Science Online offering)
This course introduces students to basic concepts in public, population and global health, and introduces social determinants of health, such as poverty, income inequality, and racism, in Canadian and global contexts.
Term: Summer 2021; Projected Enrolment: 200 students
