

Where Are They Now?

Name	Degree	Year	Thesis Title	Where Are They Now ?
Veronica Allan Côté	PhD	2018	From knowledge to action: quality participation and coaching effectiveness in parasport	
Andrusko, Kathryn Latimer-Cheung	MSc	2018	A snapshot of quality participation in physical activity for individuals with developmental disabilities: a photo elicitation study	Pursuing PhD Degree, Queen's University, Kingston ON
Barnes, Sarah Adams	PhD	2018	Historical and contemporary understandings of sleep and human performance	Postdoctoral Fellow, School of Sociology and History, Georgia Tech, Atlanta GA
Belyea, Susan Power	PhD	2018	"No es facil"/It's not easy: Neoliberalism, precarity, and food insecurity in Kingston, Ontario and Havana, Cuba	Postdoctoral Fellow, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Callender, Laura Janssen	MSc	2018	Are intensities, types, or patterns of movement behaviours most strongly associated with cardiometabolic risk factors among children?	Data Analyst, Carrot Insights, Toronto ON
Iacoe, Rachel Power	MSc	2018	Putting food back into the curriculum: understanding the process needed to implement a mandatory food literacy component in Ontario secondary school curriculum	
Kitner, Sarah Tschakovsky	MSc	2018	Interindividual differences in O delivery demand matching and its impact on exercise fatigability	
Lawrason, Sarah Côté/Martin	MSc	2018	Assessing the effectiveness of a Transformational Coaching Workshop for changing youth sport coaches' behaviours	Research Assistant, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Lithopoulos, Alexander Latimer-Cheung	PhD	2018	Branding in the promotion of healthy movement behaviour	
Mohamed, Raisah Costigan	MSc	2018	The quantification of the pivot-shift in an awake and asleep condition	

Reid, Alexandra Lévesque	MSc	2018	Physical activity and usage patterns in community sport and recreation spaces in Guadalajara, Mexico	
Rochon, Chantal Côté	MSc	2018	Examining factors that influence youth sport coaches' transformational leadership behaviours	
Sanchez Pimienta Masuda	MSc	2018	Promoting healthy urban environments for young Indigenous peoples: the case of M'Wikwedong Native Cultural Resource Centre	
Tennant, Emily Latimer-Cheung	MSc	2018	Time for a new story: circulating alternative narratives for parasport participation	Clinical Research Coordinator, Ottawa Hospital Research Institute, Ottawa ON
Velickovic, Aleksandra Tschakovsky	MSc	2018	Identification of individuals with lower versus higher exercising limb oxygen deliver: does fatigue progression differ?	
Williams, Jennifer Pyke	MSc	2018	Does menstrual cycle phase impact the brachial artery flow mediated dilated response to acute hyperglycemia?	Pursuing PhD, Department of Kinesiology, McMaster University, Hamilton ON
Atrooshi, Darran Lévesque	MSc	2017	Exploring parental perceptions of a walking-school-bus initiative in northern Ontario	Health Promotion and Research Analyst, Region of Waterloo Public Health, Waterloo ON
Bonafiglia, Jacob Gurd	MSc	2017	Individual variability in the mRNA expression responses to resistance exercise	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Brady, Jennifer Power	PhD	2017	Trading in the apron: the contemporary history of dietetics in Canada and what it means for the future of the profession	Assistant Professor, Applied Human Nutrition, Mount Saint Vincent University, Halifax NS
Carey, (Robert) Scott King	PhD	2017	Embodying acne: Skin, subjectivity and dermatological science	
Davidson, Taryn Ross	MSc	2017	Physical activity versus cardiorespiratory fitness as predictors of all-cause mortality in men	Pursuing MD
Edgett, Brittany Gurd	PhD	2017	Regulation of SIRT1, SIRT3, PGS-1 α , and LRP130 in response to energetic stress in human skeletal muscle	Postdoctoral Fellow, Human Health and Nutrition Sciences, University of Guelph, Guelph ON
Girard, Céline Costigan	MSc	2017	Investigating the progression of ACL patients through rehabilitation using the step-up-and-over test	
Gushulak, Rieanne Fergus	MSc	2017	Human immunodeficiency virus (HIV) and the lived experience of male inmates	

			in Canadian federal penitentiaries: a snapshot of the Ontario region	
Hainstock, Madison Masuda	MSc	2017	"We have a roof over our head, but we have to eat too": the impact of shifting foodscapes on health and wellbeing during the transition from homelessness into supportive housing	Research Assistant, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Hammond, Brittany Ross	MSc	2017	Explorations of interindividual variability for change in waist circumference and body weight in response to standardized exercise	
Hapuarachchi, Malinda Ashanthi Stevenson	MSc	2017	Biomechanical modelling and objective validation of a dynamic load carriage device	
Herbison, Jordan Martin	MSc	2017	Achievement despite adversity: a qualitative investigation of undrafted National Hockey League players	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
King, Trevor Pyke	PhD	2017	Flow-mediated dilation induced by a sustained shear stress stimulus: repeatability and impact of aerobic exercise	
Kobetich, Alexandra Costigan	MSc	2017	The single-leg-hop as a return to sport test after anterior cruciate ligament reconstruction	
Lefebvre, Jordan Côté	MSc	2017	Quantitative descriptions of coach leadership behaviours and positive youth development in sport	Pursuing PhD, Kinesiology and Physical Education, McGill University, Montreal QC
MacGregor, Anne Janssen	MSc	2017	The effect of substituting time spent in one domain of activity with time in another on a child's cardio-metabolic health	
Matusiak, Jennifer Gurd	MSc	2017	The effects of sprint interval training on circulating TNF- α and IL-6 independent of changes in abdominal adipocyte size in overweight adults	
Amelie Mojarad, Elham Lévesque	MSc	2017	Physical activity experiences of Persian women recently immigrated to Canada	
Nagy, Emma Moore	PhD	2017	Advancing the development of social interventions for depression	
Nguyen, Andrew Janssen	MSc	2017	Pedestrian traffic safety and outdoor active play among 10-13 year-olds in a mid-sized Canadian city	Research Coordinator, Department of Medicine, Kingston General Hospital, Kingston ON

Phillipson, Andrea King/Varadharajan	PhD	2017	Incorporated: student mental health discourse and higher education in Canada	Centre for Teaching and Learning, Queen's University, Kingston ON
Sawula, Laura Gurd	MSc	2017	Negotiating a progress paradox: the value of exercise for people living with amyotrophic lateral sclerosis	
Silvester, Morgan Pyke	MSc	2017	The role of muscle mass in post-exercise hypotension following acute isometric handgrip and leg exercise	
Teixeira, Carla Lévesque	MSc	2017	Clinical practice guideline application in Mexican mutual aid groups	
Turnnidge, Jennifer Côté	PhD	2017	An exploration of coaches' leadership behaviours in youth sport	Postdoctoral Fellow, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Walsh, Jeremy Tschakovsky	PhD	2017	A multifaceted investigation into the effects of acute exercise on indices of brain function	Postdoctoral Fellow, Children's Hospital of Eastern Ontario (CHEO), HALO Lab, Ottawa ON
Bentley, Robert Tschakovsky	PhD	2016	Inherent individual differences in the mechanisms governing oxygen delivery – implications for exercise performance and tolerance	
Carbone, Sarah Power	MA	2016	An investigation into Canada's failure to implement a National School Lunch Program during WWII and postwar reconstruction 1940-1950	Research Coordinator, Lawrence S. Bloomberg Faculty of Nursing, University of Toronto, Toronto ON
D'Urzo, Katrina Pyke	MSc	2016	Does estrogen fluctuation throughout the menstrual cycle impact flow-mediated dilation during exercise in healthy premenopausal women?	Research Assistant, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Epp-Stobbe, Amarah Fischer	MSc	2016	An investigation of lower limb joint powers as a predictive measure of countermovement vertical jump height	Strength and Conditioning, Canadian Sport Institute, Victoria BC
Gharib, Hoda Lévesque	MSc	2016	Comparing the effectiveness of affective and cognitive messages on improving attitudes and intentions to take breaks from sitting at home and at work	Pursuing PhD, Toronto ON
Giles, Matthew Gurd	MSc	2016	To examine the inter-individual variability of the VO ₂ peak response to SIT, and the relationship between changes in cardiovascular function and changes in VO ₂ peak following SI	
Hogg, Florence (Flurry) Adams	MA	2016	Teaching empowerment through sport: an analysis of fast and female	

Koekkoek, Madison Power	MA	2016	"Come and live in my shoes": food access and social isolation for people living in poverty in Gananoque, ON	Talent Acquisitions Coordinator, Athlete Division, The Upper Deck Company, Carlsbad CA
Malibari, Maha Power	MA	2016	Teen girls' perspectives on their current dietary habits and food choices: a qualitative study in Jeddah, Saudi Arabia	Wellness Programs Assistant, Corporate Wellness Centre, International Wellness Centre, Saudi Arabia
McGuckin, Matthew Côté/Bruner	MSc	2016	Youth sport coaches' reflection on leadership behaviours during games and practices	
McKenna, Hilary Lévesque	MSc	2016	Implementing the physical literacy component of the 2015 Ontario Health and Physical Education curriculum: Is the stage set?	
McPhee, Iain Pyke	MSc	2016	Thirty minutes of handgrip exercise enhances brachial artery dilation in response to two different shear stress profiles	Federal Government, Ottawa, ON
Moull, Kimberley Fischer	MSc	2016	Exploring the use of biomechanical metrics in the validation of physical employment standards	
Mukhina, Natalia King	MA	2016	Lost in translation Russian media portrayals and laypersons' interpretations of Angelina Jolie's breast cancer discourse	Margaret Angus Research Fellow, Museum of Health Care, Kingston ON
Price, Elizabeth Costigan	MSc	2016	Rowing biomechanics: the effect of power on posture	Biomechanical Engineering Support Staff, Bertec, Columbus OH
Raleigh, James Gurd	MSc	2016	Individual variation in VO ₂ peak response following sprint interval training: the role of peripheral adaptation	
Ross, Gwyneth Fischer	MSc	2016	The application of PCA as a movement pattern recognition technique: a proof of principal	Pursuing PhD, Human Kinetics, University of Ottawa, Ottawa ON
Scribbans, Trisha Gurd	PhD	2016	The adaptive response of humans to exercise: impact of exercise intensity, fibre-type specific responses and molecular patterns of response	Assistant Professor, Faculty of Kinesiology and Recreation, University of Manitoba, Winnipeg MB
Sheahan, Peter Fischer	MSc	2016	Evaluating the prospective ergonomic benefits of a wrist brace on wrist posture muscle activity, rotational stiffness, and shovel-ground impact	
Shirazipour, Celina Latimer-Cheung	PhD	2016	Quality physical activity participation for military veterans with a physical disability	
Ventresca, Matthew	PhD	2016	Mo-Bros: masculinity, irony and the rise of Movember	Postdoctoral Fellow, Dept of History and Sociology,

King				Georgia Institute of Technology, Atlanta GA
Vierimaa, Matthew Côté	PhD	2016	Just for the fun of it: an integrative case study of positive youth development in a recreational community sport program	Assistant Professor, Kinesiology and Health Science, Utah State University, Logan UT
Bailey, Chris Costigan	MSc	2015	An evaluation of patients with anterior cruciate ligament reconstruction with an accelerometer and the step-up-and-over test	
Bell, Khalela Power	MA	2015	My autoethnography of tree planting in Northern Ontario	Outreach Legal Advocate, Together Against Poverty Society, Victoria BC
Bostad, William Ross	MSc	2015	Association between exercise, cardiorespiratory fitness and change in insulin sensitivity	
Cembal, Kori Lévesque	MSc	2015	Capturing the youth perspective: using photographs to explore member experiences at the Boys and Girls Club of Canada	
Clarke, Kyle Adams	MA	2015	Journey's into the winter wilderness: an exploration of the traditional winter camping experience	Pursuing PhD, Faculty of Education, Queen's University, Kingston ON
Cowan, Theresa Ross	MSc	2015	The separate effects of exercise amount and intensity on total and abdominal adipose tissue in men and women who are abdominally obese	
Donald, Bryce Latimer-Cheung	MSc	2015	Understanding leadership behaviours of peer athlete mentors in parasport programs	Regional Services Coordinator, Spinal Cord Injury Ontario, Kingston ON
Fernandez, Angela Ross	MSc	2015	Differences in abdominal and liver fat accumulation between obesity-matched diabetic and non-diabetic adults	
Ferrao, Thomas Janssen	MSc	2015	Parental influences on active play among children	
Makhoul, Paul Fischer	MSc	2015	Use your legs, not your back: an investigation into the links between lower body work and spine angles and moments during paramedic-related lifting tasks	
McCalpin, Michelle Côté	MSc	2015	Exploring young female athletes' perceptions of their modified sport environment	Research Assistant, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Millington, Robert King	PhD	2015	The United Nations and sport for development and peace: a critical history	Postdoctoral Fellow, University of Toronto, Toronto ON

Oh, Marchiano Costigan	MSc	2015	Quadriceps avoidance characteristics of knees with a reconstructed anterior cruciate ligament during a forward lunge	
Plotnick, Meghan Pyke	MSc	2015	Does administration of vitamin C attenuate an acute mental stress induced impairment in endothelial function?	Pursuing MD, Dalhousie, University, Halifax NS
Ricketts, Alexander Ross	MSc	2015	Addition of cardiorespiratory fitness within an obesity risk classification model identifies men at increased risk of all-cause mortality	
Salsberg, Jon Moore	PhD	2015	A social network perspective on ownership and self-determination in participatory research	Associate Director, Participatory Research, Department of Family Medicine, McGill University, Montreal QC
Schmitter, Sarah Pyke	MSc	2015	The impact of chronic isolated increases in superficial femoral artery shear stress on flow-mediated dilation	Pursuing Master's in Physical Therapy, McGill University, Montreal QC
Smith, Patricia Power	MSc	2015	"I am deliberate and afraid of nothing": using body mapping as a research tool to explore HIV risk among youth in Soweto, South Africa	Study Director, AYZAZI Research Project, Faculty of Health Sciences, Simon Fraser University, Burnaby BC
Adler, Ashley Côté	MSc	2014	An examination into bullying in the adolescent sport context	GymKats Inc., Proprietor (teaching sport and positive developmental outcomes), Toronto ON
Allan, Veronica Côté	MSc	2014	Examining the role of coaches' emotions in the adolescent team sport environment	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Baillie, Colin Levesque	MSc	2014	For the community, by the community: Developing a physical activity environment assessment tool for First Nations communities	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Brennan, Andrea Ross	MSc	2014	Associations between dietary intake, physical activity and intrahepatic fat	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Clarke, John Ross	MSc	2014	Cardiorespiratory fitness adaptations to exercise in sedentary men	Assessment Coordinator, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Carson, Ira Pyke	MSc	2014	Investigating markers of cardiovascular disease risk in female hospital employees	Trail Crew, Sunshine Village, Banff AB

Coffey, Brendan Fischer	MSc	2014	An investigation into training, evaluation and application of the physical demands description to document paramedic work	Ergonomist, Occupational Health Clinics for Ontario Workers (OCOW) Windsor ON
Galaviz, Karla Lévesque	PhD	2014	Physical activity promotion in Mexican healthcare settings: from knowledge to action	Postdoctoral Fellow, Rollins School of Public Health, Hubert Department of Global Health, Emory University, Atlanta GA
Giovannetti, Sara Ross	MSc	2014	Associations of modifiable risk factors with insulin resistance among inactive, abdominally obese adults	
Hawzen, Matthew Beamish	MA	2014	Reading Tim Tebow through the (con)fusion: developments of the Right, ideological operations of conservatism, and the reproduction of white power in Tebow's born-again America	Pursuing Sport Management Degree, Florida State University, Florida USA
Hiebert, Bradley Power	MSc	2014	"Heroes for the Helpless": Using media to maintain Settler dominance in the Canadian artic	Pursuing PhD in Health Policy, Western University, London ON
Hunter, Zoë Fergus	MSc	2014	Propagating HIV risk: the influence of gender-based violence, rape myth acceptance, alcohol use, and demographics in South Africa HIV/AIDS epidemic	Pursuing MD at University of Ottawa, Ottawa ON
Jarvis, Jocelyn Latimer-Cheung	MSc	2014	Investigating message believability as a determinant of parents' intentions to support their children in meeting physical activity and screen time guidelines	Research Assistant, Public Health Ontario
Jinnah, Naila King	MA	2014	Rocking up the Twitter points: how professional hockey player identifies are affected by Twitter usage	Lecturer, Math, Internationella Engelska Skolan Sundsvall, Sweden
Johnson, Ron Fischer	MSc	2014	The effect of time and experience on kinematics and psychosocial measures during a simulated sign language interpretation session	Health and Safety Officer, Labour Program and Social Development, Vancouver BC
Kapsokefalou, Danai Lévesque	MSc	2014	Getting the message home and the children outdoors: parents' perceptions of barriers and facilitators to enrolling their children in a summer outdoor activity program	School Health Programming Consultant, Athens, Greece
Levac, Brendan Pyke	MSc	2014	The role of acute phosphate supplementation on endothelium-dependent and -independent vasodilation	Pursing MD, University of Ottawa, Ottawa ON
Ma, Jasmin Gurd	MSc	2014	4 minutes of in-class high-intensity interval activity improves classroom behaviour and selective attention in elementary school children	Pursuing PhD, McMaster University, Hamilton ON

Matte, Renée Côté	MSc	2014	Distinguishing between dual roles: A mixed-methods examination of the perceptions and behaviours of coaches working in both recreational and competitive youth sport environments	Pursuing PhD, University of New Brunswick, NB
Poitras, Veronica Pyke/Tschakovsky	PhD	2014	Cardiovascular health, disease and function: contributions of stress and diet, and consequences of Type 2 Diabetes	Project Manager, CHEO Research Institute, Ottawa ON
Robinson, Simon Power	MA	2014	Put your money where your mouth is: hunger, marketing and corporate food bank philanthropy	Community Relations Coordinator & Credit Counsellor, K3C Counselling Centres, Kingston ON
Robson, Jordan Janssen	MSc	2014	Description of sporadic physical activity and the relationship between non-bouted physical activity intensity and the metabolic syndrome in American adults	Epidemiologist, Algoma Public Health, Sault Ste. Marie ON
Sabatier, Laure Moore	MSc	2014	Perceived general health vs. objective physiological health among senior women of Kingston: Identifying the over-estimators	Research Assistant, Faculty of Education, SPEG, Queen's University, Kingston ON
Slattery, David Pyke	MSc	2014	Obesity and endothelial function: investigating the importance of the shear stress stimulus profile used for FMD assessment	Pursuing Master of Management of Innovation Degree, University of Toronto, Toronto ON
Wilson, Mitch Ross	MSc	2014	Can sedentary time attenuate the acute effect of exercise on insulin action?	Pursuing MD, University College Dublin, Dublin, Ireland
Almosnino, Sivan Stevenson	PhD	2013	Maximal versus submaximal muscular exertions: a study of valid measures using isokinetic dynamometry	Occupational Health, Safety and Ergonomics Consultant, Resource Environmental Associates, Toronto ON
Buckham, Sara Côté	MSc	2013	An exploratory examination of the thought processes underlying coach-athlete interactions in adolescent team sport	
Button, Brenton Janssen	MSc	2013	Is the association between the built environment at school and students' physical activity moderated by the social environment?	
Clarke, Janine Janssen	MSc	2013	The relationship between different patterns of weekly physical activity accumulation and the metabolic syndrome in Canadian adults	Employed with Statistics Canada, Ottawa ON
Damecour, Caroline Stevenson	PhD	2013	External trunk support with industrial bench work	
Erickson, Karl Côté	PhD	2013	Interpersonal interactions and athlete development in different youth sport contexts	Assistant Professor, Michigan State University MI

Gainforth, Heather Latimer-Cheung	PhD	2013	The role of communication channels for knowledge mobilization in a community-based organization	Assistant Professor, School of Health and Exercise Sciences at the University of British Columbia - Okanagan Campus, BC (Jul 2015)
Imtiaz, Faizan Cote	MSc	2013	Examining the experiences of athletes in adult-led and peer-led youth sport	Pursuing PhD, Department of Psychology, Queen's University, Kingston ON
Kingston, David Costigan	MSc	2013	A generalized software solution for the estimation of joint moments: an application to lifting	Pursuing PhD, Applied Health Sciences, University of Waterloo, Waterloo ON
Ko, Gifford Ross	MSc	2013	Do cardiorespiratory fitness and abdominal obesity mediate the exercise-induced change in insulin sensitivity in older adults?	
Medina, Catalina Janssen	MSc	2013	Validity and reliability of the International Physical Activity Questionnaire among Mexican Adults	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Mistry, Chetan Latimer-Cheung	MSc	2013	Text2Plan: testing the efficacy of tailored text messages on planning for physical activity	Pursuing PhD, Exercise Psychology, University of Victoria, Victoria BC
Moscovitch, Erica Adams	MA	2013	Teenage girls' first-person narratives about weight perception and dangerous weight-loss practices: a study of five blogs from LiveJournal.com	Education Coordinator, Posturepro, Montreal QC
Olsheski, Kathryn Lévesque	MSc	2013	Do dose, fidelity and quality of implementation predict participant outcomes? A process evaluation of the proactive trial	Health Promoter, Kingston Bariatric Regional Assessment and Treatment Centre, Kingston ON
Perrier, Marie-Josée Latimer-Cheung	PhD	2013	Getting the ball rolling: sport and leisure time physical activity promotion among individuals with acquired physical disabilities	SSHRC Postdoctoral Fellow, McMaster University, Hamilton ON
Safdie, Margarita Lévesque	PhD	2013	Childhood obesity prevention and policy in the Mexican school system	Health Promotion Coordinator, Schools, Mexico Secretary of Health, Mexico
Shalev, Einat Ross	MSc	2013	Associations between physical activity, cardiorespiratory fitness, and abdominal obesity with cardiometabolic risk factors in inactive obese women	Pursuing Internship for Nutritionist, Israel
Siemens, Tina Gurd	MSc	2013	High intensity versus endurance training: are physiological and biomechanical adaptations preserved 2 months following the completion of an intensive exercise intervention	Pursuing OT degree, School of Rehabilitation Therapy, Queen's University, Kingston ON

Smith, Marysa Ross	MSc	2013	Effect of acute exercise on whole body fat oxidation: contributions of abdominal subcutaneous adipose tissue	
Williams, Cameron Gurd	MSc	2013	The acute impact of a single dose of resveratrol on insulin sensitivity, whole body fat oxidation and intracellular signaling in skeletal muscle and adipose tissue in overweight and obese men	Pursuing MD, University of Toronto, Toronto ON
Bassett, Emma Moore	MSc	2012	Examining social capital and depressive symptoms: Tackling measurement debates, neighbourhood correlates and gender differences	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Bentley, Robert Tschakovsky	MSc	2012	Challenging O ₂ delivery demand/matching with reduced exercising muscle perfusion pressure: Do vasodilatory and/or pressor mechanisms compensate	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Berenbaum, Erin Latimer-Cheung	MSc	2012	Examining mediators in the message frame-behaviour relationship: an application of the communication behavior change model	Research Assistant, Public Health Ontario, Toronto ON
Bergeron, Kimberly Lévesque	PhD	2012	An exploration of language, policies, and collaborative actions by planning and public health professionals to guide active community design	Health Promotion Consultant (P/T), Public Health Ontario; Adjunct Instructor, Trent University; Adjunct, Queen's University; Bergeron Consulting, Built Environment and Health Specialist, Cobourg ON
Boyd, Colin Gurd	MSc	2012	The impact of interval intensity in overweight young men	Pursuing MD
Bravo, Michael Tschakovsky	MSc	2012	Metaboreflex-induced flow improvement is absent in older males with Type II Diabetes	
Carson, Valerie Janssen	PhD	2012	Sedentary behavior and health among young people	Assistant Professor, Faculty of Physical Education and Recreation, University of Alberta, Edmonton AB
Edgett, Brittany Gurd	MSc	2012	mTOR pathway is Vp-regulated by both acute endurance exercise and chronic muscle contraction in rat skeletal muscle	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Graham, Ryan Stevenson	PhD	2012	Assessing dynamic spinal stability using maximum finite-time lyapunov exponents	Associate Professor, Schulich School of Education, Nipissing University, North Bay ON
Heroux, Mariane Janssen	PhD	2012	Childhood and youth obesity: An international perspective	Lean Eating Coach, Precision Nutrition, Toronto ON

Kellawan, J. Mikhail Tschakovsky	PhD	2012	Oxygen delivery challenges of maximal exercise and initial orthostatic hypotension	Assistant Professor, Department of Health & Exercise Science, University of Oklahoma, Norman OK
Kenney, Kelly Moore	MSc	2012	Kingston adolescents' knowledge about the social determinants of health: Assessing and addressing the gap	Intern, Ministry of Municipal Affairs, Kingston ON
King, Trevor Pyke	MSc	2012	The effect of handgrip exercise duty cycle on brachial artery-flow mediated dilation	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Laxer, Rachel Janssen	MSc	2012	The proportion of obesity-related behaviours attributable to the neighbourhood built environment in Canadian youth	Pursuing PhD
McNicol, Lauren Adams	MA	2012	"Slut Walk" is kind of like feminism": A critical reading of Canadian mainstream news coverage of Slut Walk	Research Assistant, Women's College Research Institute, Toronto ON
O'Neill, Trevor Ross	MSc	2012	Combined use of waist and hip circumference to identify high-risk abdominally obese HIV-infected patients	
Sheppard, Phillip Stevenson	MSc	2012	Sex-based differences in lifting technique under increasing load conditions: A principal component analysis	Physiotherapist, Alpine Physiotherapy, Smithers BC
Smallman, Catherine Stevenson	MSc	2012	Continuous relative phase variability of hand-held load carriage techniques: The effectiveness of a mover's assistive device	Travel / work post-degree in New Zealand
Szjgyarto, Ingrid Pyke	MSc	2012	Investigating the neuroendocrine and hemodynamic responses to physical and psychological stress tasks and their effects on endothelial dependent-flow-mediated vasodilation using a sustained stimulus	
Vierimaa, Matthew Côté	MSc	2012	An exploratory examination of sociometric status, athlete behavior, and sport competence in adolescent female volleyball	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Walsh, Jeremy Tschakovsky	MSc	2012	The effect of combined resistance and cognitive training on cognitive function in older adults	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Adam, Maxwell King	MA	2011	The Güegüencista Experience: Masquerade, embodiment and decolonization in early twenty-first century Western Nicaragua	Home Support Special Services Coordinator, Tillsonburg and District Multi-Service Centre, Tillsonburg ON

Balish, Shea Côté	MSc	2011	The influence of community on athletic development: an integrated case study	Pursuing PhD, Interdisciplinary PhD Program, Dalhousie University, Halifax NS
Coakley, Colleen Côté	MSc	2011	Towards an understanding of young athletes' perceptions of competence, confidence, connection, and character	
Craig-Broadwith, Morgan Ross	MSc	2011	The association between incidental physical activity and cardiorespiratory fitness	Manager, Workplace Wellness, Canadian Mental Health Association, Calgary Region, Calgary AB
Diener, Jessica Power	MA	2011	Everyone poops but no one wants to talk about it: The lived experiences of young people with inflammatory bowel disease	The Youth Advocacy Training Institute, Toronto ON
Dorney, Karima Adams	MA	2011	Health, appearance and fitness practices: how young women are making sense of their fitness practices today	
Fick, Joshua Stevenson	MSc	2011	Use of acceptability and usability trials to evaluate various design iterations of the personal lift assist device (PLAD)	Director of Business Development, PeakWorks, Toronto ON
Galbraith, Peter AW Costigan	MSc	2011	Development of a novel link-segment model for estimating lower back loading in paramedics	
Hamilton, Kerry Lévesque	MSc	2011	Park usage and physical activity: an exploration of park features, neighbourhoods and park programs	Project Coordinator, Hub for Active School Transportation, Vancouver BC
Hatchell, Alexandra Latimer	MSc	2011	Man-made messages: Investigating the influence of health messaging on men's physical activity behaviours	MD Resident in Plastic Surgery, McMaster University, Hamilton ON
Hougham, Kaitlyn Ross	MSc	2011	Evidence that the association between exercise intensity and insulin sensitivity is sex dependent	
Jacox, Natalie Adams	MA	2011	No Regrets: "Tis better to have loved and lost than never to have loved at all". The influence of romantic love on girls' first experiences of consensual heterosexual intercourse: Young women share their stories	
Ku, Jennifer Pyke	MSc	2011	Characterizing the stimulus-response relationship between endothelial dependent flow-mediated dilation and shear stress	Pursuing MD at University of Toronto, Toronto ON
Kurrein, Melanie Power	MA	2011	Split in two: How divorce influences teenagers' food practices	Project Manager – Healthy Eating, Ministry of Health, Victoria BC

Legh-Jones, Hannah Moore	MSc	2011	Social capital, neighbourhood environments and physical inactivity among Montreal adults	
Macridis, Soultana Moore	MSc	2011	Children's active transportation to school: the role of parental perceptions, social connections, and the neighbourhood environment in the success of a Walking School Bus Program	Pursuing PhD, Kinesiology and Physical Education, McGill University, Montreal QC
McGuire, Ashlee Ross	PhD	2011	Physical activity, sedentary behavior and sleep: Associations with cardiometabolic risk in abdominally obese men and women	Senior Planner, Primary Care & Chronic Disease Management, Alberta Health Services, AB
Moynes, Jaclyn Tschakovsky	MSc	2011	The assessment of functional sympatholysis post-exercise in the human skeletal muscle	
Murphy, Carol Stevenson	MSc	2011	Children's posture while playing at computer work stations	Chiropractor, private practice, Kingston ON
Murphy-Mills, Jennifer Côté	MSc	2011	An examination of coach-athlete interactions in a model sport program for athletes with disabilities	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Northcott, Amanda Lévesque/Bruner	MSc	2011	"If She Can Do It, I Can Do It": An exploratory analysis of peer mentoring as an intervention strategy to increase exercise program adherence....	Health Promoter, South Shore Regional Hospital, Bridgewater NS
Prouse, Carolyn King	MA	2011	"Celebrate Africa's Humanity" is dispossess South Africa's citizenry? Rogue sovereignty, governmentality and the constitution of bare life through the 2010 FIFA World Cup	Pursuing PhD in Human Geography, University of British Columbia, Vancouver BC
Wilson, Brian Côté	MA	2011	Exploring youth sport contexts: A look at young athlete's perceptions of their specialized sport experience	Commercial Real Estate Lawyer, Blake, Cassels & Graydon LLP, Toronto ON
Barg, Carolyn Latimer	MSc	2010	Does the PlanFit? The effectiveness of combining implementation intentions and regulatory fit for increasing physical activity and decreasing sedentary behaviour	Research Officer, University of Toronto, Toronto ON
Barnes, Sarah Adams	MA	2010	Feminist narratives of sport: A second- and third-wave consciousness-raising project	Volunteer Coaching
Bolkowy, Renee Law/Latimer	MA	2010	Investigating the effects of modeling and imagery on psychological factors in the context of a hypothetical anterior cruciate ligament injury	Lifestyle Consultant

Bridel, William Adams	PhD	2010	“Finish....Whatever it Takes” Considering pain and pleasure in the ironman triathlon: A Socio-cultural analysis	Adjunct Assistant Professor, School of Kinesiology and Health Studies, Queen’s University, Kingston ON
Connelly, Gillian Lévesque	MSc	2010	Family influence on children’s physical activity and their use of Kingston Gets Active Grad 5 Community Physical Activity Pass	Program and Project Management Officer, Ottawa Public Health, Ottawa ON
Edwards, Jaymi Latimer/Law	MA	2010	The effects of a mental imagery workshop on coaches’ encouragement of imagery use	High School Teacher
Gainforth, Heather Latimer	MSc	2010	The Match Game: Investigating the effect of message framing on parents’ intentions to vaccinate their children against HPV.	Pursuing PhD, School of Kinesiology and Health Studies, Queen’s University, Kingston ON
Galaviz, Karla Lévesque	MSc	2010	Parents, practitioners and public health for a healthy family environment: a pilot evaluation to promote healthy weight in children	Pursuing PhD, School of Kinesiology and Health Studies, Queen’s University, Kingston ON
Heintzman, Kathryn King	MA	2010	Civilizing madness: sadomasochism, imperialism and German national identity, 1880’s to 1914	Pursuing PhD in History of Science, Harvard University
Catherine (Katya) Herman Tschakovsky / Rosenberg	PhD	2010	The burden of obesity and physical inactivity across the lifespan, with a focus on health related quality of life	Assistant Professor, Faculty of Kinesiology and Health Studies, University of Regina, SA
Hureau, Carolyn Lévesque	MSc	2010	Enhancing youth access to community recreation facilities: An effectiveness evaluation of the Grade 10 Community Physical Activity Pass	Program Evaluation Coordinator, Applied Research & Evaluation Department, Hamilton Public Health Services, Hamilton ON
Janiszewski, Peter Ross	PhD	2010	Investigating the heterogeneity in regional body composition, metabolic risk and response to weight loss among obese men and women	Medical Affairs Representative, MSLOntario/ Manitoba, Allergan
Jazuli, Farah Pyke	MSc	2010	The impact of baseline artery diameter on human flow-mediated vasodilation: A comparison of brachial and radial artery responsiveness to matched levels of shear stress	Kinesiologist, PT Health
MacDonald, Dany Côté/Deakin	PhD	2010	The role of enjoyment, motivational climate, and coach training in promoting the positive development of young athletes	Assistant Professor, Kinesiology / Family and Nutritional Sciences, University of Prince Edward Island, Charlottetown PE

McTavish, Sarah Moore	MSc	2010	What paves the road to maternal health care use? Investigating education, urban-rural residence, social networks and supernatural beliefs in the far-north province of Cameroon	Research Coordinator, Women's College Hospital, Toronto ON / Monitoring and Evaluation Advisor, Cameroon, Africa
Millington, Robert King	MA	2010	Basketball with(out) borders: Interrogating the intersections of sport, development, and capitalism	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Moser, Daniel Stevenson	MSc	2010	A comparative analysis of Mark III water pump carriage systems	Ontario Regional Manager, Arctic Response Canada Limited, Kingston ON / Supply Teacher, Limestone District Elementary School Board, Kingston ON
Reid, Samantha Costigan	PhD	2010	Stair negotiation in an older adult population	MITACS Program Coordinator
Sadler, Erin Stevenson	MSc	2010	Principal component analyses of joint angle curves to examine lifting technique	Pursuing medical degree, University of Toronto, Toronto ON
Slot, Tegan Dumas	PhD	2010	Occupational biomechanics of tree planters. A study of musculoskeletal symptoms, posture, and joint loading in Ontario tree planters	Ergonomist, Kingston General Hospital, Kingston ON
Almosnino, Sivan Stevenson	MSc	2009	Reliability of isometric neck strength and electromyography measures relevant for concussion prevention in athletes	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Bryan, Shirley Katzmarzyk	PhD	2009	The epidemiology of physical activity in Canada	Statistics Canada, Ottawa ON
Erickson, Karl Côté	MA	2009	State space grids: first application of a novel methodology to examine coach-athlete interactions in competitive youth sport	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Godwin, Alison Stevenson	PhD	2009	Investigating the feasibility of new methods for analysis and collection of cumulative low back loading in field applications	Assistant Professor, Laurentian University, Sudbury ON
Goody, Robyn Costigan	MSc	2009	The effect of sport confidence on drop vertical jump performance after Anterior Cruciate ligament reconstruction	Pursuing MSc, School of Rehabilitation Therapy, Queen's University, Kingston ON
Gooyers, Chad Stevenson	MSc	2009	An ergonomic version of speed-fastening work rates	Pursuing PhD, School of Kinesiology, University of Waterloo, Waterloo ON

Hall, Justin Moore	MSc	2009	Assessing Public Health Preparedness in Alberta Using a Systems-Level Approach	Adjunct Instructor, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Hetz, Samuel Latimer	MSc	2009	Adiposity and coronary heart disease risk factors in individuals with spinal cord injury: relationships with activities of daily living, secondary complications, and subjective well-being	Resident, Family Medicine
LeBlanc, Allana Janssen	MSc	2009	Recommendations for minimal and optimal amounts of physical activity to reduce the risk of dyslipidemia	Research Assistant, Children's Hospital, Ottawa ON and Certified Exercise Physiologist
Luppens, Lise Power	MA	2009	"Today Indian Food": Perspectives of Aboriginal Peoples on the foods in their contemporary diets	Nutritionist, Government of Northwest Territories
Mason, Caitlin Katzmarzyk	PhD	2009	Anthropometric markers of health risk	Postdoctoral Fellow, Fred Hutchinson Cancer Research Center, Seattle WA
O'Malley, Deborah Latimer	MSc	2009	Setting the sites high: measuring viewer attention to and recall of framed osteoporosis prevention print advertisements	Communication Consultant
Pak, Melissa Tschakovsky	MSc	2009	Dysfunctional muscle blood flow regulation during exercise in Type 2 Diabetes	Research Assistant, Int'l Collaboration on Repair Discoveries (ICORD), University of British Columbia, Vancouver BC
Palombella, Andrew Ross	MSc	2009	Effects of lifestyle-based interventions on obesity and related metabolic risk factors with minimal or no weight change	Pursuing degree in Chiropractic Medicine, University of Western Ontario, London ON
Pikard, Jennifer Fergus	MSc	2009	HIV voluntary counseling and testing among Kenyan male youth aged 13-15 years: the theory of planned behaviour applied	
Poitras, Veronica Tschakovsky	MSc	2009	Influence of caffeine on exercising muscle blood flow and exercise tolerance in Type II diabetes. A Pilot Project	Pursuing PhD degree, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Ryder, Holly Levesque	MA	2009	Combating adult obesity: an examination of program implementation	
Salim, Omar Adams	MA	2009	Afghanistan, child participation and the child-to-child approach: health education in the practice of development	Sports industry, Toronto ON
Selinger, Jessica Stevenson	MSc	2009	The effect of weight and weight distribution on upper extremity muscle fatigue during static rifle aiming	Pursuing PhD, Simon Fraser University, Vancouver BC

Smith, Abby Fergus	MSc	2009	Evaluation of a pilot workplace health promotion intervention targeting employees' health behaviours. The Motiv8 Workplace Series	Director, Quit Tasmania, New Zealand
Tollestrup, Benjamin King	MA	2009	Challenging Normalcy? Masculinity and Disability in Murderball	Bevsupport, Calgary AB
Weissgerber, Tracey Tschakovsky	PhD	2009	Effects of pregnancy and physical activity on angiogenesis and endothelial function: implications for the development of preeclampsia	Postdoctoral Fellow, Magee Women's Research Institute, Pittsburgh PA
Wiltshire, Victoria Tschakovsky	MSc	2009	Non-thesis, Pattern II	Staff Member, Department of Athletics and Recreation, Queen's University, Kingston ON
Agnew, Michael Stevenson	PhD	2008	Kinetic and kinematic adaptations to use of a personal lift assist device (PLAD)	Assistant Professor, Industrial Engineering, Virginia Tech University, Blacksburg VA
Graham, Ryan Stevenson	MSc	2008	An on-body ergonomic lifting aid is effective at reducing erector spinae demand and low back compression	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Jensen, Dennis Wolfe/O'Donnell	PhD	2008	Chemical and mechanical adaptations of the respiratory system at rest and during exercise in healthy human pregnancy: implications for respiratory sensation	Assistant Professor, McGill University, Montreal QC
Kajaks, Tara Costigan	MSc	2008	The effect of sustained static kneeling on knee joint gait parameters	Pursuing PhD, McMaster University, Hamilton ON
Kudryk, Ian Stevenson	MSc	2008	A biomechanical study of a specialized load carriage technique and the development of an assistive load carriage device	Ergonomist, Hotel Dieu Hospital, Kingston ON
McNeil, Karen Lévesque	MSc	2008	Bringing the message home: Enabling urban Aboriginal families for wholistic health	Project Coordinator, Atlantic Health Promotion Research Centre, Halifax NS
Plawinski, Marek Costigan	MSc	2008	An analysis of the different spike attack arm swings used in elite levels of men's volleyball	Manager of Ergonomics Consulting, City of Toronto, Toronto ON - and - Ergonomics Research Assistant, Construction Safety Association of Ontario, Toronto ON
Mark, Amy Janssen	PhD	2008	Physical activity, sedentary behaviour and health in children and youth	Postdoctoral Fellow at Ottawa Heart Institute, Ottawa ON
Saunders, Travis Ross	MSc	2008	Associations of the limb fat to trunk fat ratio with markers of cardiometabolic risk in elderly men and women	Pursuing PhD degree at School of Kinesiology and

				Health Studies, Queen's University, Kingston ON
Stephen, Wendy Janssen	MSc	2008	Age-related changes in weight and body composition: implications for health in the elderly	Pursuing Teacher's Degree, Queen's University, Kingston ON
Stokes, Carlie Adams	MA	2008	The potency of "healthism" as a vehicle for corporate success: The case of Lululemon Athletica	Pursuing Teacher's Degree, University of Ottawa, Ottawa ON
Strachan, Leisha Côté/Deakin	PhD	2008	An ecological approach to examining positive youth development in competitive youth sport	Assistant Professor, University of Manitoba, Winnipeg MB
Alisa Yocom Lévesque	MSc	2008	The cultural relevance of Diabetes Supportive care for Aboriginal peoples offered through Ontario Diabetes Education Centre	Physician, Medeco Medical Centre Inala, Queensland, Australia
Ayo (Ashabo), Nike Power	MA	2007	The Spiritual Foundations of the Health Experiences of Low-Income Black Women	Pursuing doctoral degree, University of Alberta, Edmonton AB
Davidson, Lance Ross	PhD	2007	Influence of Exercise Modality on Body Composition, Insulin Resistance and Functional Fitness in Aging: A Randomized Controlled Trial	Assistant Professor at Brigham Young University, Utah, USA
Eger, Tammy Rae Stevenson	PhD	2007	Investigation of health risks associated with vibration exposure, vibration transmissibility and posture during operation of mining vehicles	Assistant Professor, Laurentian University, Sudbury ON
Faloon, Kathryn Lévesque	MA	2007	Evaluation of a Health Promotion Initiative That Enhances Access to Physical Activity Facilities for 5th Grade Students: A Kingston Gets Active Initiative	Research Policy Analyst, Physical Activity Unit, Public Health Agency of Canada, Ottawa ON
Hall, Jonathan Côté	MA	2007	The Influence of Sport Type and Interdependence on the Growth Experiences of Young Male Athletes	Pursuing PhD, Department of Human Kinetics, University of British Columbia, Vancouver BC
Horton, Sean Deakin	PhD	2007	Aging Stereotypes: Effects on the Performance and Health of Seniors	Faculty Member, University of Windsor, Windsor ON
Kuk, Jennifer Ross	PhD	2007	Associations between abdominal adiposity, exercise, morbidity and mortality	Assistant Professor, Faculty of Kinesiology and Health Studies, York University, Toronto ON
Lynn, Scott Costigan	PhD	2007	Hamstring Activity and Lower Extremity Loading in Knee Osteoarthritis: The Effect of Foot Rotation	Assistant Professor, California State University, Fullerton CA

Mngoma, Nomusa Stevenson	PhD	2007	Evaluating Outcomes of a Return to Work Rehabilitation Program for Work-Related Low Back Pain	Medical Staff, Providence Continuing Care Centre, Kingston ON
Potopsingh, Nicola King	MA	2007	Reading Pole-Fitness in Canadian Media: Women and Exercise in an Era of Raunch	Human Resources, Skills and Development, Federal Government, Ottawa ON
Preston, Megan Wolfe/Janssen	MSc	2007	The Effect of Menopause on Acid-Base Regulation and the Chemoreflex Control of Breathing During Wakefulness	
Pyke, Kyra Tschakovsky	PhD	2007	Stimulus response specificity of human conduit artery flow mediated dilation	Postdoctoral fellow - 2007 / Faculty Member, School of Kinesiology and Health Studies, Queen's University, Kingston ON - 2008
Abdoli-Eramaki, Mohammad Stevenson	PhD	2006	Design and Instrumentation of a Mechanical Personal Lift Augmentation Device (PLAD) for Manual Lifting Tasks	Associate Professor, Ryerson University, Toronto ON
Doxsee, Elizabeth Lévesque	MA	2006	What Goes Into The Mix? Examining School and Community Based Interventions Implemented by the Kahnawake Schools Diabetes Prevention Project	Health Promotion Program Assistant, Health, Counselling and Disability Services, Queen's University, Kingston ON
Fraser-Thomas, Jessica Deakin/Côté	PhD	2006	An In Depth Examination of Youth Sport Dropout and Prolonged Engagement	Postdoctoral Fellow, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Hartnett, John Tschakovsky	MSc	2006	Investigation of the Dynamic Blood Flow Response at the Onset of Exercise in the Arm and The Leg	Officer Training with Royal Canadian Mounted Police
Janiszewski, Peter Ross	MSc	2006	Abdominal Obesity, Liver Fat and Muscle Composition in Young Adult Survivors of Childhood Acute Lymphoblastic Leukemia	Studying for PhD at School of Kinesiology and Health Studies, Queen's University, Kingston ON
Jolliffe, Courtney Janssen	MSc	2006	Development of Age-Specific Cholesterol and Metabolic Syndrome Classification Systems for Adolescents	Studying for MD at University of Toronto, Toronto ON
Korell, David Côté	MA	2006	Training Factors and Resources Throughout Development that Affect Competition Investment for Female Distance Runners	Technical and Service Representative, New Balance Canada, Inc., Toronto ON
Lotz, Christy Stevenson	MSc	2006	The Use of a Personal Augmentation Device (PLAD) on Muscular Fatigue During a Repetitive Lifting Task	Ergonomics Engineer, Human Tech, Michigan US
McMillan, Kathleen Ross	MSc	2006	Independent Associations Between Liver Fat, Visceral Adipose Tissue, and Metabolic Risk Factors in Men	Research Assistant at School of Kinesiology and Health Studies, Queen's University, Kingston ON

Nettlefold, Lindsay Wolfe/Janssen	MSc	2006	Phasic Menstrual Cycle Effects on Ventilatory Control and Acid-Base Regulation During Wakefulness in Oral Contraceptive Users	Research Fellow at University of Ottawa, Ottawa ON
Reid, Samantha Costigan	MSc	2006	Lower Limb Mechanics During Stair Descent With and Without a Handrail	Studying for PhD at School of Kinesiology and Health Studies, Queen's University
Robertson-Wilson, Jennifer Deakin/Lévesque	PhD	2006	Using an Ecological Approach to Examine the Influence of School Environment Upon Physical Activity Involvement in Middle School Students	Associate Professor at Wilfred Laurier University, Waterloo, ON
Wicke, Jason Costigan	PhD	2006	The Development and Assessment of a New Geometric Modeling Technique	Assistant Professor at Texas University, Texas US
Wilkes, Scott Côté/Deakin	MA	2006	The Growth Experience of Adolescent Females in Structured Basketball Programs	Studying for PhD at School of Kinesiology and Health Studies, Queen's University, Kingston ON
Ardern, Christopher Katzmarzyk	PhD	2005	Cardiovascular Risk Factor Screening Identifying Targets for Therapeutic Lifestyle Change	Assistant Professor, York University, Toronto ON
Cross, Giselle Costigan	MSc	2005	The Relationship Between Knee and Ankle Proprioception in the Young and Elderly	Research Associate
Kirby, Allison Lévesque	MA	2005	Perceived Community Resources and Physical Activity Involvement in a Northern-Rural Aboriginal Community: A Participatory Investigation of Physical Activity Opportunities in Moose Factory, Ontario	Head Coach, Cygnus Gymnastics Training Centre, St. John's NF
Lee, So Jung Ross	PhD	2005	Influence of Cardiorespiratory Fitness and Exercise Training on Obesity and Metabolic Risk	Research Associate in USA
MacDonald, Dany Côté/Deakin	MA	2005	Tracing Physical Activity Patterns in Master Athletes and Sedentary Seniors	Studying for PhD at School of Kinesiology and Health Studies, Queen's University, Kingston ON
Mason, Caitlin Katzmarzyk	MSc	2005	Identifying Persons in Need of Weight-Loss Treatment: Evaluation of Potential Treatment Algorithms	Studying for PhD at School of Kinesiology and Health Studies, Queen's University, Kingston ON
Scott, Jennifer Smith	MA	2005	Boys Being Boys: A Media Analysis of the Representations of Jocks and "Jockocracies". Through the Glen. Ridge Rape Trial and Columbine Shootings.	Traveling abroad.
Slatkovska, Lubomira	MSc	2005	Phasic Menstrual Cycle Effects on Acid-Base Regulation and Ventilatory Control	Research Coordinator, Sunnybrook Health Sciences Centre, Toronto ON

Warner, Anne Adams	MA	2005	Women's Intercollegiate Sport Within a Patriarchal Institution: A Case Study of Queen's Women in the 1920's	Research Assistant, University of Toronto, Toronto ON
Allain, Kristi Cantelon	MA	2004	In Other Words: An Examination into the Experiences of Non-North Americans in the Canadian Hockey League	Faculty Member, NB
Brackley, Heather Stevenson	MSc	2004	The Effect of Load Placement on Posture and Spinal Curvature in Prepubescent Children	
Rogers, Anna Tschakovsky	MSc	2004	Evidence for Rapid Vasoregulatory Mechanism in Oscillations in Forearm Contraction Intensity	
Saunders, Natasha Tschakovsky	MSc	2004	Evidence for Rapid Vasodilation in Transition From Mild to Moderate Exercise Intensity	Pursuing MD, University of Toronto, Toronto ON
Wall, Michael Côté	MA	2004	The Influence of Early Sport Participation and Parental Involvement on Sport Investment Decisions	Studying for LLB at University of Alberta, Edmonton AB
Watts, Meghan Ross	MSc	2004	The Independent Influence of Central and Ectopic Fat Deposition on Insulin Resistance in Overweight and Obese Men	
Weissgerber, Tracey Wolfe	MSc	2004	Maternal Physiological Adaptations During Early Human Pregnancy	Pursuing PhD, School of Kinesiology and Health Studies, Queen's University
Wirch, Jennifer Wolfe	MSc	2004	Development of a Cold Pressor Test Protocol to Evaluate Cardiac Autonomic Function in Humans	
Alghamdi, Mohammad Alkhazim Costigan/Olney	PhD	2003	The Relationship Among Locomotor Performance Measures in Knee Osteoarthritis: The Effect of Group Exercise in Biomechanical Analysis, Pain and Disability Perception, Functional Outcome, and Energy Cost	Assistant Professor, King Faisal University, Saudi Arabia and Practicing Therapist at King Faisal Hospital
Baker, Joseph R. Côté/Deakin	PhD	2003	Factors Affecting the Acquisition and Maintenance of Expertise in Male Ultra-Endurance Triathletes	Assistant Professor, York University, Toronto ON
Glenn, Nicole M. Wolfe	MSc	2003	Effects of Prolonged Maternal Exercise on Fetal Well-Being	
Good, Joshua Allen Stevenson	MSc	2003	Effects of Controlled Vertical Motion in Load Carriage Systems	Designer, Battelle, Washington DC
Jensen, Dennis Wolfe	MSc	2003	Chemoreflex Control of Breathing in Healthy Humans: Gender and Time-of-Day Effects	Studying for PhD at School of Kinesiology and Health Studies, Queen's University, Kingston ON

Kuk, Jennifer L. Ross	MSc	2003	Abdominal Adiposity, Liver Fat and Metabolic Risk in Non-Obese Premenopausal Women	Studying for PhD at School of Kinesiology and Health Studies, Queen's University, Kingston ON
Lynn, Scott K. Costigan	MSc	2003	The Effect of Time of Elderly Gait	Studying for PhD at School of Kinesiology and Health Studies, Queen's University, Kingston ON
MacEwen, Leslie W Smith	MA	2003	Puck Bunnies: A Study of Underlying Issues of Puck Bunny Culture in Junior Hockey	
Musselman, Reilly P Costigan	MSc	2003	Knee Biomechanics of Alternate Stair Climbing Patterns	Attending Medical School in Dalhousie, Halifax NS
Overend, Alissa Adams	MA	2003	"Modern" Sport and the Quest for Performance: Science or Superstition?	Faculty Member, Grant McEwen University, NB
Pyke, Kyra E. Tschakovsky	MSc	2003	A New Non-Invasive Technique to Investigate Endothelial Function in Humans	Studying for PhD at School of Kinesiology and Health Studies, Queen's University
Wong, Suzy-Lai Ross	MSc	2003	Cardiorespiratory Fitness is Associated With Lower Visceral Andiposity Independent of Body Mass Index	Studying for PhD at University of Waterloo, Waterloo ON
Blaine, William Ross	MSc	2002	Estimation of Lean Mass By Bioelectrical Impedance Analysis: Influence of Training Frequency and Modality	Research Associate, Kingston General Hospital, Kingston ON
Charlesworth, Sarah Wolfe	MSc	2002	Effects of Human Pregnancy on Physiological Responses to Prolonged Exercise	Studying for PhD at Western University, London ON
Ferguson, Tamara Adams	MA	2002	Salt Lake City's 2002 Bid, A Case Study of Anglo-Canadian Perceptions of the Olympic Ideal	Working in athletics and fitness industry in Kingston ON
Hadcock, Lindsay Stevenson	MSc	2002	Factors Affecting Force Distribution on a Load Carriage System Waistbelt	Ergonomics Consultant, Phoenix H&S Ltd.
Kos, Karen Albinson	MA	2002	The Divergence in Perceptions of the Acceptability of Physical Behaviors Among Professional Hockey Players	
Nguyen-Duy, Thanh-Binh Ross	MSc	2002	Independent Associations Among Abdominal Obesity, Cardiorespiratory Fitness, Liver Fat and Lipid Variables in Men	Industry
O'Sullivan, Tracey Wolfe/Albinson	PhD	2002	A Biopsychosocial Approach to Exercise	Fitness Consultant, Ottawa and Research Associate, University of Ottawa

Beamer, Madelyn Côté	MA	2001	The Development of Expertise in Rhythmic Gymnastics	Member of teaching faculty at Brock University
Bruff, Sandi Albinson	MA	2001	The Lived Experiences of Physical Training During First Year Orientation Camp at the Royal Military College of Canada	Member of faculty at Royal Military College, Kingston, ON
Cobley, Stephen Deakin	MA	2001	Evaluating the Microstructure of Practice: The Examination of Coach Expertise and Practice Structure.	Member of teaching faculty at Eastbourne U.K.
Freeman, Jennifer Ross	MSc	2001	Abdominal Adiposity, Skeletal Muscle Composition & Insulin Resistance in Overweight Pre-Menopausal Women	Working in health and fitness industry
Gleeson, Michael Costigan	MSc	2001	Stair-Climbing Ability & Leg Muscle Strength Following Total Knee Arthroplasty	Worked for six months in Africa with Olympic Aid; now a PhD candidate in Bioethics.
Heenan, Aaron Wolfe	PhD	2001	Human Pregnancy: An Integrated Model for the Study of Physiological Control Systems	CIHR Postdoctoral Fellow, School of Kinesiology, University of Western Ontario
Janssen, Ian Ross	PhD	2001	Linking Age-Related Changes in Skeletal Muscle Morphology with Metabolism & Disease	Faculty Member, School of Kinesiology and Health Studies, Queen's University, Kingston ON
Ready, Taryn Albinson	MA	2001	Physical Education: An Examination of the Experiences of Female Adolescents as Related to Their Self-Esteem & Body Esteem	
Robertson-Wilson, Jennifer Deakin	MA	2001	The Role of Parental Influences and Activity Involvement in the Development of Elite and Novice Hockey Players	Studying for PhD at School of Physical and Health Education, Queen's University
Soberlak, Peter Côté	MA	2001	A Retrospective Analysis of the Development and Motivation of Professional ice Hockey Players	Physical Education and Life Skills Coordinator, AILANTHUS Achievement Centre, Vancouver
Taylor, Mike Adams	MA	2001	Physical Education at the Royal Military College of Canada: A Case for Academic Accreditation	National Physical Fitness Manager, Canadian Forces, Ottawa
Wright, Andrew Côté	MA	2001	A Retrospective Analysis of Leadership Development Through Sport	Manager at Bell Mobility and providing sports consulting services
Anslow, Brian G. Wolfe	MSc	2000	Eating Disorders in Early to Mid-adolescence: Effects of Gender and Sport and Exercise Participation	

Aru, Jim Ross	MSc	2000	Abdominal Fat Distribution, Measured by Magnetic Resonance Imaging & Insulin Resistance	Attending Chiropractic College
Brown C. Ann Wolfe	PhD	2000	Autonomic Modulation of Heart Rate in Men and Women Following Coronary Artery Bypass Graft Surgery	Assistant Professor, School of Nursing, Queen's University, Kingston ON
Myslivecek, Paula Wolfe	MSc	2000	Influence of Physical Conditioning and Reproductive State on Cardiac Autonomic Control in Healthy Women	Tennis Pro, Florida
Oakley, Paul Costigan	MSc	2000	Changes in Three-Dimensional Knee Kinematics & Kinetics Within Normative Gait Speeds	Attending Chiropractic School in Iowa
Potter, Derek Costigan	MSc	2000	Gait Analysis of a New Low Cost Foot Prosthetic for use in Developing Countries	Manager, Gait Lab for Queen's Centre for Enhanced Mobility
