

Course Name: HLTH 360/3.0 Globalization and Black Health	Course Instructor: Dr. Joseph Kangmennaang	Contact Hours: Lectures: 1 x 1.5 hrs/wk / 12 weeks
		Prerequisite: Level 3 in a HLTH or KINE Plan.

Course Description: Global interconnectedness and interdependence have contributed to improvements in the social determinants of health (SDH): the conditions in which people live, work and play, and their access to opportunities for healthy lives and wellbeing, however, it has also brought many health risks especially for marginalized populations. This course will examine economic, social, technological, and the political dimensions of globalization and how these impact the health and wellbeing of Black populations, identifying opportunities and risks.	Exclusion: None
	Course Texts: There is no recommended text for this course. Weekly reading materials will be uploaded on OnQ.

Learning Outcomes: <ul style="list-style-type: none"> • Develop critical understanding of how conditions of power shape social determinants and Black health inequities. • Explain global inequities in Black health and their social and commercial determinants. • Identify the importance of practices that promote cultural safety and health equity. • Identify opportunities to operationalize strategies to promote global Black health equity.
