

Course Name: HLTH 456/3.0 Survey of Research and Literature in Health Studies	Course Coordinator: Mr. Robert Watering	Contact Hours: Independent study and meetings with supervisor (by individual contact)
		Prerequisite: Level 4 or above and registration in a HLTH Specialization, Major, JH, or KINE Specialization, and permission of the Supervisor and the Undergraduate Chair in the School of Kinesiology and Health Studies.
		Exclusion: KNPE 456/3.0
Course Description: Independent study involving a critical review of the literature on an approved topic of specialization in Health Studies. HLTH 456/3.0 is designed to provide the student with the experience of reviewing the literature and research existing data on a delimited topic in the area of health enhancement or disease prevention. Students must arrange for a faculty advisor approved by the School of Kinesiology and Health Studies. Limited spaces are available.		Course Texts: N/A
Learning Outcomes: - Investigate a topic of interest at an advanced level in an area relevant to health studies under the supervision of a faculty supervisor. - Apply a systematic approach to identify, evaluate and synthesize the research literature on this topic. - Formulate original commentary and/or conclusions. - Practice scientific writing in the related disciplinary format with technical competence.		Course Evaluation: The written presentation is evaluated by the student’s faculty advisor. Evaluation of the project is pre-determined through a contractual arrangement between the faculty supervisor and student.
