PERSONAL INTEREST CREDIT

In order to encourage students to explore subject matter outside their program of study and to promote interdisciplinary study, all upper-year Arts and Science students will be permitted to designate up to 6.0 units of degree-credit courses for pass/fail grading, thereby minimizing any risk to the students' GPA. Such courses designated for pass/fail grading will be referred to as Personal Interest Credits (PICs).

Coming from different disciplinary backgrounds, Samantha and Will aim to have an open-ended discussion about animals and what it means to be in relation with them both politically and ethically, as well as about how to bring animals into the humanities and social sciences.
