

Welcome to the 2012 SKHS E-News

May 2012 marks the end of another academic year. Our undergraduate students are packing up, getting ready to return home, graduate students are focusing on thesis work, and faculty members are switching gears to a period of more research intensive activities.

The School will hold its annual Spring Retreat in May. This gives us the opportunity to review the past year's successes and begin planning for next year.

We continue to be very proud of all our students who performed among the best at Queen's this year and as importantly got involved in a variety of important community activities. The leadership of our students is remarkable! The School implemented new internship courses in 2011-12 and this experience was very well received by both our students and the organizations involved.

Students, staff, and faculty members are adapting to a new Grade Point Average (GPA) grading scheme and I am excited to award the School its first A+...

Enjoy this E-News and write to us so you are included in the next one.

Best Wishes,
Jean

Jean Côté, Ph.D. - SKHS Director
