12.0 units at any level.		<ul style="list-style-type: none">• If a discipline has courses which could be considered either as Social Science or a Physical and Natural Science course, then choose a course in that discipline which would count towards the science degree.• For example, PSYC 251/3.0 <i>Developmental Psychology</i> is a BAH PSYC concentration option course but a BSCH PSYC degree does not include PSYC 251/3.0 as a program requirement. Therefore, this course would not count as a Physical and Natural Science course credit.• PSYC 271/3.0 <i>Brain and Behaviour</i> is a course which is included in both the BAH and BSCH PSYC program requirements. Therefore PSYC 271/3.0 would be considered a Physical and Natural Science course credit.• See above website for detailed information.• <i>Personal Interest Credits</i> are not allowed for Natural & Physical Science requirements.
